SKILLS

Programming	Java, JavaScript, Python, Golang, SQL, Rest
Frameworks	Spring Boot, Django, Express.js, React.js, React native, Fiber, Langchain
Other	Git, Docker, EC2 (AWS), S3 (AWS)

PROFESSIONAL SUMMARY

Full-stack developer with 2+ years of experience in Java Spring Boot, React, Python, and Go. Skilled in building scalable applications, designing REST APIs, and integrating cloud services (AWS, S3, API Gateway). Strong in problem-solving, system design, and delivering end-to-end features with secure, efficient, and user-friendly solutions. Passionate about AI-powered applications, exploring LangChain, AutoGen, and ML model integration to deliver intelligent, user-centric solutions.

EXPERIENCE

Software Developer	Aug-2023 - Present
Webzworld	Mumbai, India
- Implemented Micro Services for Business Management with React, Spring Boot, SQL. - Designed scalable REST APIs using Java, Spring Boot, JPA, SQL ensuring robust code quality. - Implemented Responsive Frontend UI designs and Integrated APIs efficiently in React. - Created Common Reusable Components in React. - Created API gateway Service with JWT Authentication using Express js. - Deployed and Managed Services on EC2.	

PROJECTS

Budget Tracker System
- Add and Track Your monthly expenses category wise . - Set Budget for each Category . - Data visualization charts using D3.js . - React Vite, Django, Tailwind, D3
Trello Board Clone
- Add and Remove Lists . - Add, Edit, Update , Reorder and Delete Cards under List with Drag and Drop functionality . - React Native, Expo SDK 52, Reanimated
Location Management Service
- Created Robust APIs with MVC Architecture to Get Location And Trip Cost Based on Category id . - Dockerize the Service for both development and production . - Golang, Fiber, Docker

EDUCATION

BA	2019-2022
Mumbai University	Mumbai, India
Master In Full Stack Development	2022-2023
IT Vedant	Mumbai, India
